

281000 Electronic Access Control and Intrusion

Sections Included In This Standard:

- 1.1 General
- 1.2 Codes and Standards

1.1 GENERAL

- A. The University of Florida has standardized on Lenel®OnGuard®Pro for its centralized electronic access control system. This software is manufactured by Lenel Systems International, Inc.
- B. The centralized University of Florida electronic access control system shall be a fully operational system using the latest software version supported by the software vendor.
- C. Physical Plant Division (PPD) shall administer the central data management system. Project management for the centralized University of Florida electronic access control system shall also reside with the Physical Plant Division (PPD).
- D. Colleges, departments, divisions or other UF entities having administrative ownership of buildings or defined spaces requiring electronic access control shall utilize the centralized University of Florida electronic access control system to manage access to their respective spaces.
- E. Video surveillance and intrusion detection systems shall be compatible with the centralized University of Florida electronic access control system and in conformance with these standards.

1.2 CODES AND STANDARDS

- A. Refer to "UF Access Control, Surveillance and Security Specifications" standards document for design guidelines, code requirements and system operational requirements:
